

I Found You

Once I was lost
Didn't know
How to live
And the nights were even harder.

Wandering around
In a world much too big
For a girl
With a broken heart.

But it all changed
I found a place
Where I belong.

It was fate
A new faith
I can hold on

CHORUS:

I found you
You came into my life
And lifted me up
It's you
My everything,
You're all that I need
I found you.

yeah, listen to this
You make me high
'cause the moment I found you
I felt that I would never leave you

Sometimes we need to forgive
And forget
All the pain

That makes us crumble.

Falling apart
Makes you blind
Covers up
the sun
That brightly rises.

'Cause it all changed
I found a place
Where I belong.

It was fate
A new faith
I can hold on

I found you
You came into my life
And lifted me up
It's you My everything,
You're all that I need

BRIDGE:

So much to try
This is the start
We can be strong together
I've reached a dream
'Cause you believed
You're all I know
I found you.

I found you
I found you
(you stood by me, caressing me)

I know you know you are my world
(You make me smile, you help me fight
I love you)
I found you
