

What People Say

You found me that day
When I thought that nothing could go worse.
I was in the crowd
Always busy for them to care.

And then a child of big brown eyes,
Suddenly was in front of me
More confused than I was.

Doesn't matter what we are,
Where are we going through this life,
If we always forget
What people say.

Never mind all the distance,
Different race or condition,
If we always forget
What people say.

No need to pretend
When I am with you, I can be wrong.
They won't understand,
They can't see much more through the wall.

Because this child of big brown eyes
That is now standing in front of me
Is the greatest thing I've got.

Doesn't matter what we are,
Where are we going through this life,

If we always forget
What people say.

Never mind all the distance,
Different race or condition,
If we always forget
What people say.

Let's walk through this with no shame,
With no regrets,
Forgetting what people say.
Let's make fun of ourselves,
Of our mistakes,
Nobody can tell us to be what we have to
be,
What to be
Let's be ourselves.
